

Quality Policy

As a waste management company dealing with the safe and efficient handling and disposal of waste on behalf of customers, our main objective through the nature of the business is to control and prevent pollution, through the efficient transport and handling of customers waste for reclaim, or final disposal at approved disposal sites.

Our aim will to strive for continual improvement through the review of our quality objectives, and purposeful evaluation of our processes in order to continually improve the effectiveness of the QMS. The system will be reviewed at appropriate intervals, which will provide the framework for the setting and review of quality objectives.

Our policy is to offer the most competitive, professional, and efficient service consistent with costs, and to ensure that the company's organisational goals and objectives are met in line with the customers needs and expectations. We recognise the implications of the requirements as specified in the various regulations to which we subscribe and operate to, we will ensure that the operations carried out comply with the above.

In order to meet the requirements above, and the needs and expectations of our customers in a cost-effective manner, the company will operate a system dedicated to the "Right First time Approach". It is a prime requirement of our approach to quality that each person working for, or on behalf of the company recognises and accepts the company philosophy and the responsibility for the quality of their own output.

Signed

Sean Greene - Director
